This document provides you with key investor information about this fund. It is not marketing material. The information is intended to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### MCB 2040 TARGET DATE FUND

A MUR denominated sub-fund of MCB Unit Trust (Citi Code: K2KF). This Fund is managed by MCB Investment Management Co Ltd, part of MCB Group

#### Objectives and Investment Policy

The MCB 2040 Target Date Fund adopts an active management strategy with the primary objective of achieving long term capital growth, income as well as capital conservation by investing in a mix of local and foreign securities in different combinations and weightings.

The asset mix follows an asset allocation glide path; in early investing years, the glide path allocates more to asset classes like stocks to maximise wealth accumulation potential. As the Fund approaches and passes the Target Date of 30 June 2040, it will increasingly emphasise on income and conservation of capital by investing a greater portion of its assets in bonds or other fixed income

securities. In this endeavour the Fund seeks to balance the total return and stability over time in light of the Target Date.

The MCB 2040 Target Date Fund is devised for investors who have an investment time horizon, about or close to the Target Date, i.e., 30 June 2040

Units can be bought and sold once a week on every Friday. Proceeds of repurchases are usually paid to unit holders within 10 business days after the processing date.

The units of the Fund are not entitled to dividends.

#### Risk and Reward

The risk category 3 reflects a potentially medium gain and/or loss in the value of the portfolio. This is due to 70%-100% of the Fund's assets being invested in equities in early years of investment.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile. The risk category associated with this Fund is not guaranteed and can change over time. The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund include:

**Market risk:** The performance of the Fund will be dependent to a great extent on the performance of financial markets, mainly local and overseas equities. Thus the value of the Fund will fluctuate as a result of changes financial markets.

**Foreign currency risk:** The Fund has to some extent investments in assets denominated in currencies other than the rupee and is therefore exposed to the risk that the exchange rate of the rupee relative to these currencies may change in a manner which has some effect on the net asset value.
