This document provides you with key investor information about this fund. It is not marketing material. The information is intended to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

MCB GENERAL FUND

A MUR denominated sub-fund of MCB Unit Trust (Citi Code: K2JV). This Fund is managed by MCB Investment Management Co Ltd, part of MCB Group

Objectives and Investment Policy

MCB General Fund adopts an active management approach with the primary objective of achieving long-term capital appreciation through investment in a diversified portfolio of both Mauritian and global securities whilst ensuring regular short-term income.

The investment objective of the Fund makes it suitable for investors who are seeking diversification and who are willing to invest over the long-term. The Fund is also suitable for

investors willing to have a balanced exposure to local and overseas equity instruments and fixed income securities.

Units can be bought and sold once a week on every Friday. Proceeds of repurchases are usually paid to unit holders within 10 business days after the processing date.

All net distributable income is paid out to unit holders once a year in the forms of dividends. Unit holders can then elect to reinvest their dividends at no entry fee.

Risk and Reward

The risk category 3 reflects a potentially medium gain and/or loss in the value of the portfolio. This is due to diversified investments in both local and overseas equities as well as fixed income securities.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with this Fund is not guaranteed and can change over time. The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund include:

Market risk: The value of the Fund will fluctuate as a result of changes in market prices.

Foreign currency risk: The Fund has assets denominated in currencies other than the rupee and is therefore exposed to the risk that the exchange rate of the rupee relative to these currencies may change in a manner which has a material effect on the reported values of the fund's assets which are in foreign currencies.
